Product Name :

Bosshead, Coated Aluminium, Black

Product Code :

SLE/BH/15

Description :

Bosshead, Coated Aluminium, Black (Product Code: SLE/BH/15) is a die-cast, double-head bosshead used to hold rods of 5-20mm on retort stands in school and college laboratories. The wide rod range lets one fitting grip both slim clamp shanks and thicker stand rods, and metal clamping screws tighten each head securely. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Double-head bosshead, die-cast
Material	Coated aluminium
Colour	Black
Rod range	5-20mm
Clamping screws	Metal, for tightness
Product code	SLE/BH/15
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Black Coated Aluminium Bosshead Used For?

The double head is the working principle of any bosshead: one head grips the upright stand rod, the other grips the clamp or cross rod. The wide 5-20mm range is the practical advantage here, because one design accepts the thin rods of burette, test-tube and thermometer clamps as well as heavier support rods, so a lab does not need separate bossheads for every clamp. It is a sensible line for school lab equipment bulk supply, when dozens of stands are fitted out for practicals in heating, titration and filtration.

Tighten the stand-rod head first, then position and lock the clamp, and check both screws before loading glassware. The black coating protects the aluminium and gives a uniform look across a lab; avoid scraping it with tools and wipe off spills promptly.

OEM Manufacturer

Jain Scientific Equipments Private Limited — ScienceLab to its customers — is the OEM of this black coated bosshead, producing it at its own licensed factory at Saha, Ambala, Haryana, India. Schools fitting out many benches, as well as dealers and importers, can therefore order class quantities straight from the manufacturer and ask it about matching stands and clamps. More is on the company profile.
