Description :

Draining Basket (Product Code: SLE/LA/07) is a rectangular polypropylene basket used to drain, hold and carry washed labware in laboratory wash-up areas and prep rooms. Made from white, chemical-resistant polypropylene that can be autoclaved, this piece of lab plastic ware measures 400 × 400 × 100 mm and suits schools, colleges and testing laboratories. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Material	Polypropylene, autoclavable
Chemical resistance	Chemical resistant
Colour	White
Shape	Rectangular
Dimensions	400 × 400 × 100 mm
Product code	SLE/LA/07
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Draining Basket Used For?

After a practical, beakers, flasks, measuring cylinders and test tubes are washed and stood upside down in the basket so rinse water runs off before they go to a drying rack or oven. The shallow 100 mm depth keeps items easy to reach, and the white surface makes leftover residue or chips in glassware easy to spot during checking. Because the polypropylene is autoclavable and resists common lab chemicals, the same basket can be sterilised or disinfected between uses instead of being kept only for clean items.

A practical approach in a busy wash room is to keep one set of baskets for clean items and another for items awaiting decontamination, so the two streams never mix on the draining board.

OEM Manufacturer

Jain Scientific Equipments Private Limited, known by its brand ScienceLab, is the OEM (original equipment manufacturer) of this Draining Basket, producing it at the company's own licensed factory at Saha, Ambala, Haryana, India. Laboratories, dealers and importers buy it factory-direct, and repeat orders for matching baskets are handled by the manufacturer itself — simply ask us. Our company profile has more about the business.
