Description :

Driver Sanitization Kit (Product Code: SLE/SAH/24) is a vehicle hygiene kit used to keep a driver's cab and delivery handovers clean in courier, delivery and institutional transport work. It pairs gloves, meant to be changed at every delivery, with Sterizen Sanitising Solution for touch points such as steering wheels, PDAs and door handles, so fleet operators can issue one standard kit per vehicle. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Key Details

Parameter	Detail
Purpose	Keeping the driving environment clean and hygienic
Gloves	Included; to be replaced at each delivery
Sanitising solution	Sterizen Sanitising Solution
Surfaces named for the solution	All surfaces, including steering wheels, PDAs and door handles
Shelf life	Shelf life depends on the chemical, its grade and storage conditions; ask us for the expiry date of the batch you are quoted.
Full contents and quantities	Confirmed with each quotation
Product code	SLE/SAH/24
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Driver Sanitization Kit Used For?

Delivery and transport drivers touch the same few surfaces hundreds of times a shift and then hand parcels, documents or handheld devices to customers. The kit gives them a simple routine: sanitise the steering wheel, door handles and the PDA or scanner at the start of the shift and at breaks, and put on a fresh pair of gloves for every delivery so each customer receives an item handled with clean gloves.

Use the Sterizen solution as its label directs, including any contact time before wiping, and keep the bottle closed and out of direct sun in the cab. Bag used gloves and dispose of them with general waste rather than leaving them in the vehicle. Fleet managers often keep one kit per vehicle and a small stock of refills at the depot.

What to Specify When Ordering

- Number of kits: usually one per vehicle or per driver.
- Contents check: ask us to confirm the full contents list and quantities in the kit you are quoted.
- Batch expiry: request the expiry date of the sanitising solution in the quoted batch.
- Related consumables: add spare gloves, spray or hand sanitiser if drivers will need refills.
