Product Name :

Funnel, HDPE

Product Code :

SLE/GF/19

Description :

Funnel, HDPE (Product Code: SLE/GF/19) is a white, chemical-resistant high-density polyethylene funnel with handles, designed for multipurpose liquid transfer and especially forfilling carboys, drums and barrels. Where a small bench funnel would overflow or tip, this funnelgives chemical stores, water-testing rooms and teaching labs a steadier way to decant bulkliquids. It is part of the chemistry lab equipment in India produced by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Key Details

Parameter	Detail
Material	HDPE (high-density polyethylene)
Colour	White
Resistance	Chemical resistant
Handling	Handles for ease of use
Suitable for	Multipurpose use; convenient filling of carboys, drums and barrels

Typical Use

The funnel comes into its own at the point where bulk stock is split or topped up: filling a distilled-water carboy, refilling a waste-solvent drum, transferring dilute acid into a storage container, or charging a barrel of cleaning solution. Hold it by the handles, rest the outlet firmly in the container neck and pour slowly so air can escape and the liquid does not surge back. Keeping one funnel for water and a separate, labelled one for each chemical stream avoids cross-contamination between stores.

HDPE resists many common laboratory chemicals, but compatibility always depends on the substance, concentration and temperature, so check your chemical against a resistance chart before first use. Rinse the funnel after each transfer, let it drain upside down and store it away from direct sunlight. Institutions ordering from a school laboratory equipment supplier in India usually add it to their stores list alongside carboys and aspirator bottles.

Manufacturer

ScienceLab products such as this funnel come from Jain Scientific Equipments Private Limited, a laboratory equipment company operating out of Ambala in Haryana, India. It serves schools, colleges, testing labs and distributors in India and international markets. Visit the ScienceLab company profile to learn more.
