Description :

Hazard Warning Tape (Product Code: SLE/CH/209) is a floor marking tape used for social distancing, laying out walkways, queue lines and keep-back zones that people can follow without signs or supervision. It comes in bulk, as a box of 36 rolls of 50 m each, and is intended for schools, universities, retail and industrial premises. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, for institutions planning a school laboratory setup in India or re-marking existing buildings.

Key Details

Parameter	Detail
Type	Social distancing floor marking tape
Roll length	50 m per roll
Supplied as	Box of 36 rolls
Suitable for	Schools, universities, retail and industrial premises

Typical Use

Run parallel lines of tape to divide a wide corridor into two lanes, mark a stop line in front of a counter or preparation-room hatch, or outline a keep-clear area around a fume cupboard, electrical panel or emergency exit. In exam halls and assembly areas the tape can mark seat positions or rows so that spacing stays consistent every time the room is set up. With 36 rolls in a box, a campus can mark several buildings in one go and keep rolls in reserve for repairs.

For a neat, long-lasting line, sweep and degrease the floor, let it dry, then unroll a short length at a time and press it down while keeping it straight against a chalk line or straight edge. Cut the ends square rather than tearing them, and avoid laying tape across expansion joints or areas that stay wet, where it will lift early. Walk the marked route once to check it makes sense before opening the space to users.

Supplier

Jain Scientific Equipments Private Limited, which trades as ScienceLab and is based in Ambala, Haryana, supplies this tape as part of the site safety products it offers with its laboratory apparatus. The company profile has more information.

Related Laboratory Equipment

Pair the tape with these items to complete floor and hazard marking:

- Floor Sticker, Safe Distance — marks individual standing points along a taped queue lane.
- Floor Sticker, Arrow — shows the direction of travel within taped lanes.
- Hazard Warning Tape: Flammable — symbol tape for marking shelves or cabinets holding flammable materials.
- Hazard Warning Tape: Biohazard — symbol tape for areas where biological waste is
