Description :

Mass Set, Brass, 100g (Product Code: SLE/LB/31) is the lightest brass set in the small form slotted range, used to load soft springs, rubber bands, light levers and low-range spring balances in 10g steps in school physics labs. A 10g hanger and nine 10g slotted masses make up the 100g total, so delicate apparatus is not overloaded. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Small form slotted mass and hanger set
Material	Brass
Total mass	100g
Hanger	1 x 10g (included)
Slotted masses	9 x 10g
Product code	SLE/LB/31
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the 100g Brass Mass Set Used For?

Each 10g piece adds only a small, even increment of force, so the set is ideal for gentle loading: plotting the extension of a light spring or a rubber band, balancing a metre rule on a knife-edge in principle-of-moments experiments, or checking the low end of a spring balance. Younger students also use it to see that ten equal pieces make one hundred grams, linking mass measurement to place value.

Small brass masses are easy to lose, so count all nine plus the hanger into a tray at the start and end of each lesson. Handle them by the edges, keep them away from damp benches, and hang the loaded hanger only after the spring or lever has come to rest – small loads show swinging errors clearly in any physics practical.

What to Specify When Ordering

- Step size: 10g steps with this set, the [Mass Set, Brass, 250g](#) for 5g resolution, or the [Mass Set, Brass, 1000g](#) for 100g steps.
- Material: brass, or the cast alloy 100g set with the same 10g hanger and nine 10g masses.
- The number of sets per class and the delivery location.

OEM Manufacturer

The Mass Set, Brass, 100g is an original ScienceLab product: Jain Scientific Equipments Private Limited, the company behind the brand, is the OEM (original equipment manufacturer) and makes it at its factory in Ambala, India. You can buy it directly from the manufacturer or through a distributor. **Website:** <https://scilabexport.com>, **Email:** sales@scilabexport.com keeps repeat orders coming. **Address:** 1226/1-5, Bengali Mohalla, Science Market | 133001, Haryana.
