Description :

Pipette Stand, Vertical (Product Code: SLE/LI/35) is an upright polished wooden stand used to hold pipettes vertically for storage and draining in school, college and clinical laboratories. It suits labs that need a whole class set in one place, holding 24 pipettes on a 410 mm tall frame that stands steady on four rubber feet. The stand is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Vertical
Material	Polished wood
Feet	Four rubber feet
Holding capacity	24 pipettes
Height	410 mm
Width	360 mm
Depth	110 mm
Product code	SLE/LI/35
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is a Vertical Pipette Stand Used For?

After a titration practical, a class may have two dozen pipettes to rinse. Standing them upright in this rack lets the last water drain away from the bore, keeps every tip off the bench and shows at a glance whether all pipettes have been returned. Because it stores pipettes vertically, the stand takes up only a 360 × 110 mm strip of bench, leaving the rest free for burettes, flasks and notebooks.

Set the stand on a level surface with a drip tray or absorbent cloth beneath it when draining freshly rinsed pipettes, and group pipettes by volume so students pick the right one first time. The four rubber feet help it stay put when the bench is wet. Wipe the polished wood after use and dry it, rather than letting water or reagents stand on it.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the original equipment manufacturer (OEM) of this vertical pipette stand. It is built at the company's licensed factory at Saha, Ambala, Haryana, and institutions, dealers and importers buy it straight from the factory rather than through intermediaries. As a school lab equipment manufacturer, the company quotes directly for single stands or full laboratory sets; ask us about replacement rubber feet or matching stand
