Product Name :

Premium Safety Spectacles

Product Code :

SLE/LI/36

Description :

Premium Safety Spectacles (Product Code: SLE/LI/36) are lightweight protective glasses used to shield the eyes from flying particles and UV rays during practical work in school, college and research laboratories. Teachers, students and technicians choose them for their high-grade, scratch-resistant polycarbonate lens and wrap-around coverage that protects the sides of theeyes as well as the front. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Key Details

Parameter	Detail
Lens material	High-grade polycarbonate
Lens surface	Scratch resistant
Protection (as described)	Impact and UV rays
Design	Lightweight, wrap-around coverage
Product code	SLE/LI/36
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Safety Spectacles Used For?

Eye protection is the first item on most laboratory safety lists. These spectacles are worn whenever there is a risk of small fragments or particles reaching the eyes, such as when glass tubing is cut or snapped, a crucible spits during heating, or a workshop-style practical produces chips. The wrap-around shape covers the sides of the eyes, which ordinary glasses leave exposed, and the light frame means students are more willing to keep them on for a full lesson.

Spectacles are not a sealed barrier. For work with corrosive liquids where splashes are likely, many schools in India issue safety goggles or use a safety screen as well. Clean the polycarbonate lens with water and a soft cloth, avoid abrasive paper, and store each pair in a clean drawer or case so the lens stays clear between practicals.

What to Specify When Ordering

- The number of pairs needed, for example one per student plus spares for visitors.
- Whether any wearers need to use them over prescription glasses, so we can confirm fit.
- Any eye-protection standard your institution requires, so we can check before quoting.

Supplier

Jain Scientific Equipments Private Limited, which does business as ScienceLab from Ambala, Haryana, sources these safety spectacles and supplies them to schools, colleges, research laboratories and dealers in India and international markets, often as part of a complete lab safety order. Institutions that register suppliers before purchase can record the company's GSTIN, 06AA
