Product Name :

Rubber Tubing

Product Code :

SLE/LI/37

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Rubber Tubing (Product Code: SLE/LI/37) is a heavy-duty, high-pressure red rubber tube usedto make flexible connections between taps, pumps, glassware and apparatus in laboratory set-ups. It has an 8 mm bore with a thick 4.5 mm wall and comes as a 10 m roll, so each lab can cut lengths to suit its benches. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a lab consumables supplier in India for schools, colleges and dealers.

Specifications

Parameter	Detail
Material	Rubber
Colour	Red
Bore diameter	8 mm
Wall thickness	4.5 mm
Type	Heavy-duty, high-pressure tubing
Supplied as	10 m roll
Product code	SLE/LI/37
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is Rubber Tubing Used For?

In teaching and routine laboratories, rubber tubing carries water or air between fixed fittings and apparatus: linking a condenser to the water tap and drain, joining a water filter pump to a filter flask, or running a delivery line from a gas-generation flask to a collecting vessel. The 4.5 mm wall resists kinking where a line bends around the bench, and a roll kept in the preparation room covers most connections a school lab setup in India needs during practical sessions.

Cut lengths square with a sharp blade, and ease the tube onto glass nozzles wetted with a little water rather than forcing it, so the glass does not snap. Fit a screw clip where flow must be regulated or shut off. For gas taps and Bunsen burners, use tubing intended for gas connections, such as our burner tubing listed below.

What to Specify When Ordering

- The number of 10 m rolls needed for your laboratories
- That the 8 mm bore suits the outside diameter of your nozzles and glass tubes
- Whether you also need screw clips, a filter pump or filter flasks on the same order
- Delivery location, and whether the order is for one institution, a dealer or export

Supplier

Jain Scientific Equipments Private Limited trades under the ScienceLab name and supplies this red rubber tubing from Ambala, Haryana, alongside the glassware and apparatus it connects. Labo
