Product Name :

Test Tube Holder, Metal

Product Code :

SLE/CH/231

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Test Tube Holder, Metal (Product Code: SLE/CH/231) grips tubes of 15–25mm diameter in a strong metal spring clip, carried on a strip of metal that is set into a wooden handle. Its wider jaw range makes it the holder to reach for when heating larger test tubes and boiling tubes whose diameter falls within that span, while the wooden grip keeps the hand comfortable. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, for chemistry and biology practicals, and is part of the chemistry lab equipment it supplies in India and abroad.

Specifications

Parameter	Detail
Type	Test tube holder with strong spring clip
Clip material	Metal
Handle material	Wooden
Construction	Spring clip on a strip of metal fixed in the wooden handle
Tube diameter accepted	15–25mm

Typical Use

This holder is used where the tube is too wide for a small wooden peg: heating a larger volume of liquid in a boiling tube, preparing a gas from a solid mixture, or lifting tubes in and out of a hot water bath during food tests and enzyme experiments. The strong spring clip closes firmly on the glass, so a heavier, fuller tube stays put while it is tilted over the flame. Metal jaws also avoid the scorching that wooden jaws can suffer when they drift too close to the burner.

Squeeze the clip, slide the tube in close to its mouth and release. Hold the holder only by the wooden handle, because the metal strip can warm up near a flame, and point the open end of the tube away from yourself and others. Let the clip cool before storing it with other apparatus. For schools buying from a school laboratory equipment supplier in India, pairing this holder with the peg-type version covers both narrow and wide tubes on the same bench.

Manufacturer

The holder is made by **Jain Scientific Equipments Private Limited**, which sells under the ScienceLab brand from Ambala, Haryana. The company is a registered MSME enterprise (Udyam UDYAM-HR-01-0003714), and its export consignments move under Importer-Exporter Code AAECJ8618A issued by the DGFT.
