Description :

Thermometer, Electronic, Max/Min (Product Code: SLE/CH/233) is a digital thermometer with memory that keeps the highest and lowest temperatures reached, so a class can see how warm or cold it became overnight or over a weekend without anyone watching the reading. It shows temperature to 0.1°C on a large, clear display, covers 0° to 50°C indoors and -50° to 70°C outdoors, and includes a freeze alert. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, and is a versatile item of school chemistry lab equipment in India, also used for geography and environmental science lessons.

Specifications

Parameter	Detail
Type	Electronic maximum/minimum thermometer with memory
Resolution	0.1°C
Indoor range	0° to 50°C
Outdoor range	-50° to 70°C
Display	Large, clear digital display; instant reading
Alert	Freeze alert function
Mounting	Complete with stand and hanging slot
Size	100 x 75 x 18mm
Power	2 x 1.5V batteries (supplied)

Typical Use

The memory function is what makes this thermometer useful in teaching. Students can log the daily maximum and minimum for a weather project, compare conditions inside and outside the classroom, or monitor a germination tray, greenhouse corner or chemical store room between visits. The freeze alert helps protect plants, water-based solutions and specimens on cold nights, and the separate indoor and outdoor ranges let one unit serve both a classroom and an outdoor study area.

Reset the stored values at the same time each day so readings are comparable, and position the unit out of direct sunlight and away from heaters, which would otherwise exaggerate the maximum. Stand it on a bench using the built-in stand or hang it on a wall through the hanging slot. As a compact digital instrument it fits neatly alongside other chemistry lab equipment in India used for environmental and data-logging activities.

Manufacturer

ScienceLab is the brand under which **Jain Scientific Equipments Private Limited** of Ambala, Haryana, manufactures and supplies laboratory and classroom instruments. For institutional and tende
