Product Name :

Battery Holder, C

Product Code :

SLE/PHY/136

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Battery Holder, C (Product Code: SLE/PHY/136) is a single-cell battery holder used to hold one C-size battery and connect it into simple circuits in school physics and electronics labs. It measures 58 mm long by 29 mm wide and has tag terminals, so leads can be soldered on or clipped to it for bench circuits and student projects. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of its range of school physics lab equipment in India.

Specifications

Parameter	Detail
Type	Battery holder
Battery size	C
Number of cells	1
Length	58 mm
Width	29 mm
Terminal type	Tag
Product code	SLE/PHY/136
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a C Battery Holder Used For?

A C battery holder turns a loose cell into a secure, reusable power source for electricity experiment kit practicals in school: lighting a lamp, running a small motor or buzzer, or measuring the voltage of a single cell. The tag terminals accept a crocodile clip for quick lessons or a soldered wire for a permanent project board.

Several holders can be wired in series when an investigation needs a higher voltage. Match the positive end of the cell to the positive contact before connecting, take batteries out at the end of term to avoid leakage damage, and use insulated leads when connecting the holder to meters.

Supplier

Jain Scientific Equipments Private Limited trades as ScienceLab and supplies this C battery holder from Ambala, Haryana, alongside the leads, clips and meters used with it. Schools, colleges, dealers and importers in India and international markets can combine it with other electricity items in a single enquiry. Read about the company on the ScienceLab profile page.

Related Physics Lab Equipment

Useful companions for battery-powered circuit work:

- Battery Clip, PP3 — connects a PP3 battery instead of a C cell.
- Battery Snap with Crocodile Clip — battery connector with crocodile clips already fitted.
