**Product Name :**

Heat Absorption & Radiation Comparator

**Product Code :**

SLE/PHY/187

## Description :

Comprises a 12 V bulb which acts as a heat source and 2 parabolic metal bodies, one finished in black and one in shiny metal.

These bodies have 2 thermometer holders attached for temperature readings.

The apparatus allows demonstration for comparing heat absorption & radiation between dull and black bodies.

Instructions included.

Thermometers not included.
