Description :

Heat Sensitive Paper (Product Code: SLE/PHY/188) is a thermochromic paper used to show temperature differences as colour changes in school science lessons on heat, insulation andbody temperature. Each pack holds 40 A4 sheets in four colour pairs, and the paper reacts evento the warmth of a hand, so results are visible at once. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of its range of school physics lab equipmentin India.

Specifications

Parameter	Detail
Type	Thermochromic heat sensitive paper
Pack size	40 A4 sheets
Colours	Four: blue/white, purple/pink, pink/white and green/yellow
Response	Changes colour as temperature rises, even from the heat of a hand
Topics	Temperature, insulation and body temperature
Product code	SLE/PHY/188
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is Heat Sensitive Paper Used For?

Press a palm onto a sheet and a coloured handprint appears, strongest where the skin is warmest — an instant way to talk about body temperature. Wrap strips around containers of warm water covered with different materials and the colour change shows which material insulates better. Laid over a warm object, a sheet maps the hotter and cooler areas, making the paper a low-cost addition to any heat energy science kit.

Cut sheets into strips so one pack can serve several groups, and use the four colour pairs to tell different trials apart. Keep unused sheets flat, dry and away from direct sunlight and heaters, and never hold the paper near a flame or a very hot surface.

What to Specify When Ordering

- Number of packs, each containing 40 A4 sheets.
- Any specific colour-change temperature your activity needs — ask us to confirm before ordering.
- Thermometers or heat apparatus you want quoted in the same order.

Supplier

ScienceLab, the trading name of Jain Scientific Equipments Private Limited, supplies heat sensitive paper from Ambala, Haryana, to primary and secondary schools, teacher training institutes, dealers and importers in India and international markets.
