Product Name :

Solar Wind Large

Product Code :

SLE/PHY/227

Description :

This system provides you with all the answers you need concerning the basics of using wind energy.

The study of how wind speed, wind direction or rotor type influences the power output are only some examples of possible experiments.

With the help of curriculum-based trials, it discusses different topics which are necessary for understanding the functions of wind power plants.

Both qualitative experiments for students from age of 11 to 13, and complete quantitative trials for physics lessons until the age of 19 are described in detail.

Contact Science Lab for your Educational School Science Lab Equipments. We are best technical educational equipments manufacturers, technical educational equipments manufacturer, technical educational equipments supplier, technical educational instruments, technical educational instruments exporter, technical educational instruments manufacturer, vocational training lab instruments exporter.
