

Product Name :

Micro Voltmeter

Product Code :

SLE/PHY/245

Description :

The Microvoltmeter is an effective and robust replacement for a spot galvanometer with nine ranges from 100 μ V to 3 μ V.

The instrument has a large moving coil meter which can be auto-zeroed by a membrane button switch.

The input resistance is 10MO/V and is 1K on the 100V range which is considerably better than a spot galvanometer.

Input is by way of 4mm sockets or, for very low voltages where a shielded lead is preferred, UHF socket.

Technical Specifications :

Measurement: 9 ranges, from 100 μ V to 3 μ V

Power: PP3 9V battery

Input impedance: 10MO per volt, maximum 30MO

Input: 4mm socket or UHF socket, complemented by a 4mm socket for negative input

Dimensions: 208 x 155 x 115mm (W x H x D).

Height including handle is 187mm.
