Description :

Carry Case for Microscopes (Product Code: SLE/M/126) is a nylon microscope bag used to keep a microscope completely dust free in storage and to carry it safely during field work. The microscope is placed inside easily and held in place with a few straps, and the bag measures 25x 39 x 19 cm. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala,a laboratory instruments supplier in India, for schools and field users.

Specifications

Parameter	Detail
Type	Nylon microscope bag
Material	Nylon
Dimensions	25 x 39 x 19 cm
Securing	A few straps hold the microscope safely inside the bag
Purpose	Dust-free storage; carrying a microscope on field work
Product code	SLE/M/126
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a Microscope Carry Case Used For?

Microscopes left uncovered in a school lab collect dust on the eyepieces, nosepiece and stage, and cleaning them before every class takes time. Keeping each microscope in its own nylon bag keeps it completely dust free between lessons, which saves time on cleaning and maintenance. For teachers running pond studies or ecology field trips, the same bag makes it easy to carry a microscope around all day.

Stand the microscope upright in the bag, fasten the straps around it and close the bag before lifting. Support the base of the bag when carrying, and compare the 25 x 39 x 19 cm size with your microscope's height, width and depth before ordering.

What to Specify When Ordering

- The microscope model the bag must hold, with its height, width and depth
- Number of bags, for example one per microscope
- Whether cleaning kits or lens tissue should be added to the order

Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, manufactures this nylon carry case in Ambala, Haryana, as an accessory for school and field microscopes. Schools, colleges, dealers and importers in India and international markets can order it with new microscopes or for instruments already in use. See the ScienceLab company profile for more.
