Product Name :

Prepared Microscope Slide Set – Circulatory System

Product Code :

SLE/PS/107

Image not found or type unknown

Description :

Prepared Microscope Slide Set – Circulatory System (Product Code: SLE/PS/107) is a set of prepared glass microscope slides used for hands-on microscope practicals on blood, blood vessels, heart muscle and lymphatics. It contains 10 slides each of artery and vein, cardiac muscle, cardiac muscle (LS), human blood thin film and lymphatic (TS), so a full class can examine one preparation together. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of its range of prepared microscope slides in India.

Specifications

Parameter	Detail
Artery and vein	10 slides
Cardiac muscle	10 slides
Cardiac muscle (LS)	10 slides
Human blood thin film	10 slides
Lymphatic (TS)	10 slides
Product code	SLE/PS/107
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Prepared Microscope Slide Set – Circulatory System Used For?

This set is designed for students to find structures themselves under the microscope. The artery and vein slide is the standard exercise for comparing wall thickness and lumen shape, and it usually leads to a labelled drawing. The blood thin film lets students tell red cells from the fewer white cells and practise counting fields of view.

Two cardiac muscle preparations, one of them a longitudinal section, give a class the chance to look for the striped, branching fibres of heart muscle, while the lymphatic transverse section completes the picture of how tissue fluid returns to the blood. With 10 copies of each slide, the preparations can rotate round the lab in one or two periods, which suits school biology lab equipment used for board practical preparation.

Supplier

The Circulatory System slide set comes from Jain Scientific Equipments Private Limited, trading as ScienceLab, of Ambala, Haryana. We supply prepared slide sets like this to schools, colleges and dealers across India and in international markets, and we can list them on the same quotation as microscopes and heart models. The company profile gives more background.
