# Description :

**Microslide Viewer** (Product Code: SLE/PS/123) is a hand-held viewer used to look atMicroslides at 5X magnification in classrooms and outdoor lessons. It needs no electricity orbatteries: a white reflector gathers ordinary room light to give a bright image, so every pupil canview slides at the desk without a microscope. The viewer is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as a practical biology teaching aid and part of itsbiology lab equipment in India.

## Specifications

| Parameter | Detail |
|---|---|
| Purpose | Specially designed teaching tool for viewing Microslides |
| Magnification | 5X |
| Illumination | White reflector giving a bright image in normal classroom light |
| Power | None required (no electricity or batteries) |
| Where it can be used | Classroom and outdoors |
| Product code | SLE/PS/123 |
| Supplied by | Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India |

## What Is a Microslide Viewer Used For?

The viewer lets a whole class study Microslide lesson sets at the same time, which is difficult when a school has only a few microscopes. Pupils hold it up, let the white reflector catch the light from windows or ceiling lights, and look at the magnified image; there is no focusing on a stage, no lamp to switch on and no risk of cracking a glass slide with an objective lens.

Because it runs without power, the viewer is equally useful on a field trip, in a classroom without sockets at the desks, or in a primary or middle-school lesson where microscopes would be too complex. Teachers often use it to introduce a topic before moving older students on to compound microscopes and conventional prepared slides.

## What to Specify When Ordering

- The number of viewers, for example one per pupil or one per pair.
- Which Microslide lesson sets you want to view with it, as these are listed separately.
- Your delivery location for the quotation.

## Supplier

Jain Scientific Equipments Private Limited supplies the Microslide Viewer through its ScienceLab brand in Ambala, Haryana. Schools, teacher-training centres and educational distributors can order viewers together with Microslide lesson sets so a class set arrives ready to use.
