Description :

Human Hypertension Model (Product Code: SLE/BL/69) is a life-size teaching model on a stand with base used to explain high blood pressure and its effects in nursing, medical, pharmacy and health-education classes. Measuring 40 × 12 × 12 cm, it gives presenters something concrete to point to during lessons and awareness sessions on a condition that often has no symptoms. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM anatomical models manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Human anatomical teaching model
Topic	Hypertension (high blood pressure)
Size	40 × 12 × 12 cm
Scale	Life size
Mounting	On stand with base
Structures shown	Not itemised in our description — photographs available on request
Product code	SLE/BL/69
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Hypertension Model Used For?

In health education sessions the model gives the presenter something to point to while explaining what blood pressure is, how it is measured and why persistently raised pressure strains the heart and blood vessels over the years. Pairing it with a live reading taken on a blood pressure monitor turns an abstract number into a practical lesson that students and patients remember.

Nursing and pharmacy tutors use it when teaching lifestyle advice and the role of medication, and it sits naturally beside a heart model in anatomy displays on the circulatory system. Because it stands on its own base, it can stay on a reception counter or health-camp table all day. Dust it regularly and keep it out of strong sunlight.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the OEM (original equipment manufacturer) of the Human Hypertension Model and makes it at its own licensed factory at Saha, Ambala, Haryana, India. As an anatomical models manufacturer selling factory-direct, it deals with colleges, health programmes, dealers and importers without a trading intermediary: quotations, photographs of the current model and repeat orders all come from the maker. Company information is on the profile page.
