Product Name :

Treble Column Frame

Product Code :

SLE/HF/46

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Treble Column Frame (Product Code: SLE/HF/46) is the widest of our tall steel tray frames, providing three side-by-side columns of tray space in one freestanding unit. It is intended for central stores — a hospital supply room, a pathology or pharmacy store, or a school science department that wants all its practical kits in one labelled bank of trays. Trays and runners are ordered separately to suit the contents. The frame is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of its laboratory furniture in India range.

Specifications

Parameter	Detail
Type	Treble column tall frame
Material	Steel
Dimensions	1850 H x 1055 W x 420 D
Trays and runners	Supplied separately

Typical Use

With three columns under one frame, a single unit can be zoned by purpose: for example, one column for dressings and gloves, one for sampling supplies and one for paperwork in a clinic; or physics, chemistry and biology kits side by side in a school prep room. Mixing shallow trays for small items with deep trays for bulkier ones in different columns keeps everything visible and easy to count during stock checks.

Stand the frame against a wall on a level floor and load it from the bottom up. If the store is also used for a school lab setup in India where rooms are rearranged often, castors and a matching metal top turn it into a mobile, closed-top unit. Order enough runner pairs for every tray level you plan to use.

Manufacturer

ScienceLab is the brand of **Jain Scientific Equipments Private Limited**, an Ambala, Haryana company whose storage frames, trolleys and cabinets are produced for hospitals, laboratories and educational institutions. Read more about our background on the company profile.

Related Hospital Furniture

Parts and alternatives for a treble frame installation:

- Metal Top, Treble Frame — a flat metal top sized for a treble frame
- Runners for Trolley — metal runner pairs for tray levels (confirm fit when ordering)
- Castor Set of 4 — heavy duty castors if the frame must be moved
- Bench Height Trolley, Treble Column — the same three-column idea at bench height
- Treble Antimicrobial Trolley with Deep Trays — a ready-configured treble unit with an antibacterial treatment and trays included
