Product Name :

Rover Trolley – Trays Included

Product Code :

SLE/HF/54

Image not found or type unknown

Description :

Rover Trolley – Trays Included (Product Code: SLE/HF/54) is a tough, practical all-terraintrolley built to carry trays wherever they are needed and to move heavy loads with ease. It has astylish curved silver frame, five sets of runners for a variety of tray combinations, a strap tosecure trays and contents, and 260mm rubber tyres for all terrains. Trays are included, and youspecify the tray sizes and colours when ordering. Schools, colleges and hospitals buy it from **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a school lab equipment supplier inIndia.

Specifications

Parameter	Detail
Frame	Curved silver frame
Runners	Five sets, allowing a variety of tray combinations
Load security	Strap to secure the trays and contents
Wheels	260mm rubber tyres for all terrains
Trays	Included; tray sizes and colours must be specified when ordering
Stairs	Can be taken up and down stairs
Delivery	Supplied fully assembled

Typical Use

This Rover is at home on a school campus. On sports day it takes beanbags, cones and bottled water out to the field across grass and gravel on its large rubber tyres; in term time it moves a class set of tablets to an after-school club, or a practical kit from the science store to a classroom on another floor. The strap holds trays and contents in place, so the load arrives as it was packed, and the trolley can be taken up and down stairs.

Because the five runner sets accept different tray combinations, think about your loads before ordering: several shallow trays suit small items and sorted kits, while fewer deeper trays suit balls, bottles or bulky equipment. Colour-coding trays by department or activity helps staff return them to the right place, and the whole unit arrives fully assembled, ready to use.

Manufacturer

Jain Scientific Equipments Private Limited, whose products carry the **ScienceLab** name, makes this Rover as part of its furniture and equipment range for schools and hospitals from its base in Ambala, Haryana. Find out more on the company profile page.
