Description :

"Covid Testing" Arrow Right Sign (Product Code: SLE/HE/14) is a right-pointing direction sign used to guide people towards a Covid testing or sample-collection point in clinics, hospitals, colleges and workplaces. Site coordinators place it wherever the route bends right, and at 300 x 200 x 5 mm it stays compact enough for doors, pillars and barrier panels. The sign is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, together with the other items a laboratory equipment supplier provides for health facilities.

Specifications

Parameter	Detail
Legend	"Covid Testing" with direction arrow
Arrow points	Right
Size	300 x 200 x 5 mm
Product code	SLE/HE/14
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Covid Testing Arrow Right Sign Used For?

Many testing sites run a one-way loop: visitors enter by one door, pass a registration desk, reach the test booth and leave by a different exit. A loop that runs clockwise is made up mostly of right turns, so this version of the sign often does most of the work of keeping people moving in one direction and away from those coming the other way.

When planning, sketch the loop on a floor plan and mark each right-hand bend before ordering. Mount the sign where it is visible from the back of a queue, not only from the front, and check it again once barriers and partitions are in place, because new screens can block a sign that looked clear on an empty floor.

What to Specify When Ordering

- The number of right-hand turns on each route you are signing
- How many Left and Ahead signs you need to complete the loop
- Whether you need the material or fixing method confirmed before ordering

Supplier

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, an Ambala company that supplies direction signs, screens and ward items alongside its laboratory range. Buyers setting up a new testing or vaccination point can put the whole list to one supplier and receive a single quotation, with dispatch arranged from Haryana to sites in India and international markets. Company details are on the ScienceLab profile page.
