Description :

Hazard Warning Tape: Explosive (Product Code: SLE/CH/241) carries the explosive hazard pictogram on white self-adhesive vinyl, giving laboratories a quick way to flag locked cupboards, containers and restricted zones linked to substances with an explosion risk. It is also used to outline the keep-back boundary around a demonstration bench. The tape is 25 mm wide, the symbol repeats every 75 mm with a blank area between, and each roll is 66 m long. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as one of the lab equipment accessories it offers to schools, colleges and research laboratories.

Specifications

Parameter	Detail
Hazard shown	Explosive pictogram
Tape type	Self-adhesive vinyl
Background colour	White
Symbol spacing	Every 75 mm, blank area between symbols
Width	25 mm
Roll length	66 m

Typical Use

Few substances in a teaching laboratory carry an explosion risk, which is exactly why their storage must stand out from everything else. Technicians use this tape to border the door and shelf of the locked cupboard set aside for such materials, and to mark the containers and trays that belong to it, so nothing is moved into general storage by mistake. During teacher-only demonstrations that involve a small, controlled bang or a rapid reaction, a strip across the bench or floor shows students exactly how far back to stand, reinforcing the safety screen and goggles.

For boundaries, lay the tape in one continuous run so the repeated symbol is visible from every side of the demonstration area. On cupboards and trays, clean and dry the surface first so the vinyl adheres properly. Clear hazard marking of this kind is a simple part of any school laboratory setup and helps visiting inspectors, cleaners and substitute teachers understand the room without a briefing.

Supplier

The tape is supplied by ScienceLab, the trading name of **Jain Scientific Equipments Private Limited** in Ambala, Haryana. Besides the apparatus it manufactures, the company provides safety signage and marking supplies so that a laboratory can be equipped and labelled from a single order. Our company profile tells you more.
