Product Name :

Hazard Warning Tape: Flammable

Product Code :

SLE/CH/242

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Hazard Warning Tape: Flammable (Product Code: SLE/CH/242) is printed with the flammable hazard pictogram and used to highlight solvent cupboards, spirit and fuel stores, and the bench areas where flammable liquids are poured near burners. Made from white self-adhesive vinyl, it is 25 mm wide, repeats the symbol every 75 mm with a blank area between, and is sold as a 66 m roll — enough to mark several storage units and work zones. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of the lab consumables it provides to institutions in India and international markets.

Specifications

Parameter	Detail
Hazard shown	Flammable pictogram
Construction	Self-adhesive vinyl tape, white
Repeat	Pictogram every 75 mm with a blank area between symbols
Width	25 mm
Supplied as	66 m roll

Typical Use

Flammable liquids such as ethanol, methylated spirit and organic solvents are among the most commonly used hazardous materials in school and college laboratories, and they are often in use in the same room as open flames. Staff apply this tape along the doors and shelf edges of the solvent cupboard, around the station where spirit burners are refilled, and across the front of the bench or fume cupboard area where solvents are dispensed for chromatography or extraction. The repeated symbol reminds students to extinguish burners nearby before opening a bottle and to return the solvent to its marked store straight after use.

Fix the tape to cool, clean surfaces only — never on or near a hot plate, burner or heater — and press it down firmly so edges do not lift. Store spare rolls in a cool, dry place away from direct sunlight to keep the adhesive in good condition. Clear marking of solvent storage belongs in every chemistry lab equipment plan in India alongside spill kits and good ventilation.

Supplier

ScienceLab, the brand of **Jain Scientific Equipments Private Limited** in Ambala, Haryana, supplies this flammable warning tape to laboratories that want their safety marking to arrive with the rest of their equipment. You can read about the company on our company profile.
