Description :

Biology Learning Table Series 9 (Product Code: SCL201/1.31) is a compact set of sixlaminated charts on genetics, cell division and behaviour, prepared according to the programmefor biology 9 with contents in the Albanian language. Topics run from DNA structure and the lawsof trait inheritance to mitosis, meiosis and the birth of conditioned reflexes. Each one-page chart measures 70 x 100 cm, and the series is made by a scientific instruments manufacturer in India, **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Specifications

Parameter	Detail
Number of charts	6
Chart size	70 x 100 cm
Format	One-page, laminated, coloured
Material	Plastic sheets
Language	Albanian
Programme	Biology 9
Topics	Birth of conditioned reflexes; DNA structure; law of trait uniformity; law of decomposition (segregation) of traits; cell reproduction – mitosis; reproduction of sex cells – meiosis

Typical Use

These charts carry the more abstract topics of the biology 9 course. Teachers typically open with the DNA structure chart, then use the two inheritance-law charts to work through simple crosses and predict how traits appear in offspring. Displaying the mitosis and meiosis charts side by side helps students compare the number of divisions and the chromosome content of the resulting cells, a comparison that appears regularly in exams.

The conditioned reflexes chart links the course to behaviour and the nervous system, giving the set a broader reach than a genetics-only poster pack. For genetics teaching, pair the charts with a DNA model kit so students can handle the double helix they have just studied. Keep the laminated sheets clean with a damp cloth and store them flat between terms.

Manufacturer

Trading as ScienceLab, Jain Scientific Equipments Private Limited makes this chart series in Ambala, Haryana. Its catalogue spans teaching charts, biology models and laboratory apparatus, supplied to schools, colleges and education authorities in India and international markets.
