Product Name :

Proof Clips

Product Code :

SCL275/038

Image not found or type unknown

Description :

Proof Clips (Product Code: SCL275/038) is a wooden test tube holder used to grip a test tube while it is hot or whenever the tube should not be touched by hand during school chemistry and biology practicals. Students use it most when heating a tube over a flame, and its wooden construction keeps fingers clear of the hot glass. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM scientific instruments manufacturer in India, at its own factory in Ambala, as basic chemistry lab equipment for schools in India.

Key Details

Parameter	Detail
Type	Test tube holder (clip)
Material	Wood
Purpose	Holds a test tube in place when the tube is hot or should not be touched
Product code	SCL275/038
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is a Wooden Test Tube Holder Used For?

Heating a test tube is one of the first practical skills pupils learn, and a holder makes it safe. Clip the holder near the mouth of the tube, tilt the tube so its open end points away from everyone, and move the bottom gently through the flame so the contents warm evenly instead of bumping. The same grip is useful for decomposing a salt, warming a food-test mixture, or holding a tube whose outside is wet with a corrosive reagent.

Keep the wooden holder itself out of the flame, let it cool before it goes back in the drawer, and store it dry. A holder is for one tube at a time; stand the tube in a rack as soon as heating is finished.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited (CIN U29309HR2020PTC087597), the OEM behind Proof Clips. Production takes place at the company's licensed factory at 449, HSIIDC Industrial Area, Saha, Ambala (Factory Licence AMB-ONLINE-CHD-J-414), and holders are dispatched from there to schools, dealers and importers without a middle trader. Read the company profile to learn more.

Related Laboratory Equipment

Items used together with a test tube holder during heating practicals:

- Test Tubes (With Rim) — glass tubes to hold and heat
- Alcohol Lamp — a small flame for heating the tube
