Description :

Human Teeth Model, Lower Molar with One Root (Product Code: SLE/BL/89) is a stand-mounted model of a lower molar used to show the nerves and vessels inside a tooth in biology, dental and nursing classes. It presents the molar with one root together with its nerves and vessels, appropriately coloured and numbered with a key card. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM biology lab equipment manufacturer in India, at its own factory in Ambala.

Key Details

Parameter	Detail
Tooth represented	Lower molar with one root
Structures shown	Nerves and vessels
Identification	Numbered, with key card
Mounting	On a stand
Finish	Appropriately coloured and neatly finished
Product code	SLE/BL/89
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Lower Molar Model Used For?

Molars are the broad grinding teeth at the back of the mouth, and toothache usually means that decay or infection has reached the nerves and blood vessels inside the tooth. By showing those nerves and vessels, the model helps students see that a tooth is living tissue with its own blood and nerve supply, and why deep decay becomes painful and needs treatment.

The numbered features and key card make it suitable for identification practice and practical assessments in dental assistant, nursing and biology courses. As school biology lab equipment in India, it fits lessons on teeth, nutrition and oral health from middle school upward, and it pairs well with an incisor or multi-rooted molar model when comparing tooth types. Keep it on its stand and dust it with a soft, dry cloth.

OEM Manufacturer

ScienceLab, the trade name of Jain Scientific Equipments Private Limited, is the original equipment manufacturer of the Human Teeth Model, Lower Molar with One Root. The model is produced at the company's own licensed factory in the HSIIDC Industrial Area at Saha, Ambala, Haryana, and goes factory-direct to schools, colleges, dealers and importers in India and international markets. Buyers deal with the maker itself for quotations, spare key cards and repeat orders. More on our company profile.
