Product Name :

Containers for Aquariums and Incubators

Product Code :

SCL344/072

Image not found or type unknown

Description :

Containers for Aquariums and Incubators (Product Code: SCL344/072) is a glass container used to hold water, small aquatic organisms, cultures or germinating seeds for observation in school and college biology laboratories and incubators. Measuring 26 x 19 x 10 cm, it is chemical and heat resistant, so it can sit inside a warm incubator or be cleaned with laboratory detergents as part of a biology lab setup in schools. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and laboratory equipment supplier in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Material	Glass
Shape	Square (as listed)
Dimensions	26 x 19 x 10 cm (260 x 190 x 100 mm)
Chemical resistance	Chemical resistant
Heat resistance	Heat resistant
Product code	SCL344/072
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Glass Aquarium Container Used For?

As a small aquarium, the container houses water plants, snails or tadpoles for short observation studies on respiration, behaviour or life cycles, and its glass walls let students watch from the side without disturbing the organisms. Inside an incubator it can hold culture dishes, moist soil or germinating seeds where a steady temperature is needed.

With a height of 10 cm the container is shallow, which suits germination work and small aquatic setups rather than deep tanks. Fill it gradually, avoid sudden large temperature changes even though the glass is heat resistant, and wipe the walls with a soft cloth to keep them free of algae and residues.

What to Specify When Ordering

- The number of containers for your class or incubator.
- Whether the 26 x 19 x 10 cm footprint fits your incubator shelf or bench.
- Your intended use (aquarium or incubator), so we can suggest matching items.

OEM Manufacturer

Jain Scientific Equipments Private Limited, which trades as ScienceLab, is the OEM behind these glass containers and makes them at its own licensed factory at Saha, Ambala, Haryana. Schools, colleg
