Description :

The Outward Appearance of the Heart (Product Code: SCL295/0168) is a laminated wall chart used to teach the external anatomy of the heart in school and college biology classrooms. Teachers use the 70 cm x 100 cm wall-mounted sheet before students move on to internal chambers, valves and blood flow, so the class first learns the heart's surface features. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Topic	External (outward) appearance of the heart
Type	Wall-mounted chart
Finish	Laminated
Size	70 cm x 100 cm
For use in	Laboratories and classrooms
Product code	SCL295/0168
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Outward Appearance of the Heart Chart Used For?

Teachers use it to help students recognise the heart's external landmarks: the atria and ventricles, the apex, the great vessels such as the aorta, pulmonary trunk and venae cavae, and the coronary arteries that supply the heart muscle itself. Knowing these surface features makes later lessons on circulation easier, including why a blocked coronary artery damages the heart.

For heart model anatomy lessons, hang it beside a three-dimensional heart model so students can match each surface structure on the model with the wall reference. Senior classes can then move on to the internal structure of the heart once the outside is familiar.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the original equipment manufacturer of The Outward Appearance of the Heart chart. The company makes the chart at its own licensed factory at Saha, Ambala, Haryana, India, and sells it factory-direct to schools, colleges, dealers and importers. Because quotations come straight from the manufacturer, buyers know exactly who stands behind the product and whom to ask for repeat supplies. Read more on the ScienceLab company profile.
