Description :

Nervous System (Product Code: SCL312/0176) is a laminated wall chart used to teach how the brain, spinal cord and nerves control and coordinate the human body, in biology laboratories and classrooms. Teachers put up the 70 cm x 100 cm chart during units on coordination, the senses and reflexes, where one large diagram keeps the whole class focused. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Topic	Human nervous system
Mounting	Wall mounted
Finish	Laminated
Size	70 cm x 100 cm
Application	Laboratory and classroom teaching
Product code	SCL312/0176
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Nervous System Chart Used For?

The nervous system is usually taught as the central nervous system, made up of the brain and spinal cord, and the peripheral nervous system of nerves that link it to muscles, glands and sense organs. Teachers use the chart to show how a message travels from a receptor to the brain or spinal cord and back out to an effector that responds.

In practical lessons students can test their reaction time or knee-jerk reflex and then use the chart to explain the pathway involved. It is a practical addition to biology lab equipment for schools that already stock brain and neuron models, because it shows the system as a whole rather than one part at a time.

OEM Manufacturer

ScienceLab is the brand name of Jain Scientific Equipments Private Limited, the OEM that makes the Nervous System chart at its own licensed factory at Saha, Ambala, Haryana, India. The company is a registered MSME enterprise (Udyam UDYAM-HR-01-0003714) and handles export shipments under Importer-Exporter Code AAECJ8618A issued by the DGFT. Schools, dealers and importers therefore buy straight from the manufacturer. Company background is on the ScienceLab company profile.
