Description :

Animal Cell Structure 1 (Product Code: SCL318/0179) is a laminated wall chart used to teach the organelles of an animal cell and their functions, in school and college biology laboratories and classrooms. Measuring 70 cm x 100 cm, it gives students a large, clear reference when they first meet the nucleus, mitochondria and other cell parts, and it belongs on any school biology lab equipment list. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Subject	Structure of the animal cell
Type	Wall-mounted chart
Finish	Laminated
Size	70 cm x 100 cm
Setting	Laboratories and classrooms
Product code	SCL318/0179
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Animal Cell Structure Chart Used For?

An animal cell has no cell wall and no chloroplasts; instead it is bounded by a flexible cell membrane and contains organelles such as the nucleus, mitochondria, ribosomes, endoplasmic reticulum, Golgi apparatus, lysosomes and centrioles. Teachers use the chart to explain how these structures work together, for example how proteins made on ribosomes are packaged and sent on by the Golgi apparatus.

A simple practical is to scrape a few cheek cells gently, stain them with methylene blue and compare them under the microscope with the chart. Because it stays on the wall, the chart remains useful from the first cell lessons right through to revision for exams on cell structure.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the original equipment manufacturer of the Animal Cell Structure 1 chart. The company produces the chart at its own licensed factory at Saha, Ambala, Haryana, India, so buyers deal directly with the source instead of a reseller. Schools, colleges, dealers and importers can ask the manufacturer for extra copies when new classrooms open. See the ScienceLab company profile for background.
