Description :

Mendelian Inheritance (Mendel's Third) (Product Code: SCL324/0182) is a genetics teaching aid used to complete a lesson series on Mendel's laws of inheritance for school and college biology students. Like the other titles, it is based on Mendel's experiments with pea plants and the 7 main contrasting traits he considered, and it rounds off the genetics section of a school'sbiology lab equipment. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, anOEM manufacturer, at its own factory in Ambala, India.

Key Details

Parameter	Detail
Topic	The third of Mendel's laws of inheritance
Source experiments	Mendel's pea plant experiments — both of those used to determine his inheritance laws
Traits in Mendel's work	7 main contrasting traits
Dimensions and format	Not stated in this listing — available on request
Series	Final title, following Mendel's First and Mendel's Second
Product code	SCL324/0182
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Mendel's Third Teaching Aid Used For?

Textbooks disagree on which principle is Mendel's third. In some it is the law of dominance, which explains why one allele can mask another so that a hybrid resembles only one of its parents; in others, where uniformity and segregation come first, the third law is independent assortment. Ask us which principle this title presents so that it matches your syllabus.

Teachers use this title at the end of a heredity unit to pull the laws together and to discuss exceptions that later scientists found, such as incomplete dominance and linked genes. Displayed with the first and second titles, it gives the class a complete set of biology teaching aids on Mendelian genetics.

OEM Manufacturer

Jain Scientific Equipments Private Limited, whose trading name is ScienceLab, manufactures the Mendel's Third title as the OEM. Production takes place at the company's own licensed factory at Saha, Ambala, Haryana, India, and the whole Mendel series is supplied direct from the maker to schools, colleges, dealers and importers. That gives buyers one point of contact for quotations and repeat orders. Company details are on the ScienceLab company profile.
