Product Name :

Blood Composition

Product Code :

JSS-297/0169

Image not found or type unknown

Description :

Blood Composition (Product Code: JSS-297/0169) is a laminated wall chart used to teach what blood is made of and what each component does, in school and college human biology classrooms. Teachers mount the 70 cm x 100 cm chart in laboratories and classrooms forlessons on plasma, red and white blood cells and platelets, often alongside microscope work onstained blood smears. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Topic	Composition of human blood
Type	Wall-mounted chart
Finish	Laminated
Size	70 cm x 100 cm
Application	Laboratories and classrooms
Product code	JSS-297/0169
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Blood Composition Chart Used For?

Blood is a liquid tissue: a straw-coloured fluid called plasma carrying three kinds of formed elements. Teachers use the Blood Composition chart to explain that plasma transports water, salts, nutrients, hormones, proteins and wastes; red blood cells carry oxygen bound to haemoglobin; white blood cells defend the body against infection; and platelets help blood to clot at a wound.

The chart is especially useful next to the microscope, where students compare the cell shapes they see on a stained smear with the reference on the wall. It also leads naturally into topics such as anaemia, immunity, blood groups and transfusion, and it is one of the core biology teaching aids for any human physiology unit.

OEM Manufacturer

The Blood Composition chart is an OEM item: ScienceLab, the trading name of Jain Scientific Equipments Private Limited, is its original equipment manufacturer and makes it at the company's own licensed factory at Saha, Ambala, Haryana, India. Biology departments and suppliers can order it together with human-biology models and charts from the same maker, with quotations issued by the manufacturer itself. The ScienceLab company profile has more information.
