## Description :

**Azlon Dispensing Bottle** (Product Code: SLE/P/11) is a round LDPE dropper bottle used to dispense indicators, stains and reagents drop by drop in school, college and research laboratories. It holds 30 ml and is fitted with a spouted dropper closure plus a captive sealing cap, so the cap stays attached to the bottle while it is in use. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a lab plasticware supplier in India serving Indian and international markets.

### Specifications

| Parameter | Detail |
|---|---|
| Bottle shape | Round |
| Material | LDPE (low-density polyethylene) |
| Closure | Spouted dropper closure with captive sealing cap |
| Spout | Can be cut |
| Capacity | 30 ml |
| Listed size | 32 mm (given with the capacity; confirm which dimension it refers to) |
| Product code | SLE/P/11 |
| Supplied by | Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India |

### What Is the Azlon Dispensing Bottle Used For?

Teachers use this 30 ml dropper bottle to hand out small, controlled amounts of indicator solutions, stains and test reagents at student benches, so each group works from its own bottle instead of pouring from stock. Squeezing the soft LDPE body pushes liquid out through the spout a drop at a time, which suits spot tests, food tests and indicator additions in chemistry lab equipment sets for schools in India.

Fill the bottle from a labelled stock container using a small funnel, write the reagent name on the side, and close the captive cap after every use to limit evaporation and contamination. If you trim the spout, cut off only a little at a time, because a larger opening releases bigger drops and the cut cannot be undone.

### Supplier

Jain Scientific Equipments Private Limited, which trades as ScienceLab, supplies the Azlon Dispensing Bottle from Ambala, Haryana, India. Azlon identifies a third-party brand, so ScienceLab sources this bottle and ships it to schools, colleges, laboratories, dealers and importers alongside the rest of their laboratory order. Company details are on the ScienceLab profile page.
