Product Name :

Pipette Filler

Product Code :

SLE/P/13

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Pipette Filler (Product Code: SLE/P/13) is a thumb-wheel pipetting aid used to fill and drain pipettes without mouth suction in school, college and research laboratories. This red, 25 ml capacity filler is easy to use, and its finely adjustable thumb wheel makes it a practical part of a titration kit for schools in India. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Type	Thumb-wheel pipette filler
Capacity	25 ml
Colour	Red
Control	Finely adjustable thumb wheel
Product code	SLE/P/13
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a Pipette Filler Used For?

A pipette filler replaces mouth suction whenever a volumetric or graduated pipette is filled, protecting students from swallowing or inhaling reagents. The top of the pipette is pushed gently into the filler, and turning the thumb wheel draws liquid upward; turning it back lets liquid run out under control, so the meniscus can be set on the mark and a measured volume delivered into a flask.

Hold the pipette close to its top end when inserting it, not by the bulb, to lower the risk of breakage. Avoid drawing liquid up into the filler itself, and wipe it dry if a splash reaches it. Store it with other pipetting aids in a clean drawer so the seal stays free of dust.

What to Specify When Ordering

- Pipette size: this red filler is the 25 ml capacity model; smaller pipettes may suit the 10 ml filler listed in the same range.
- Quantity: how many titration stations or student pairs need their own filler.
- Accessories: whether pipette stands or a bulb-type filler should be quoted on the same order.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab, supplies this pipette filler from Ambala, Haryana, India as part of its offer of chemistry lab instruments. The company sources the filler and dispatches it with glassware and other bench equipment to schools, colleges, laboratories, dealers and importers in India and international markets.
