Product Name :

Marked (Tarred) Pots

Product Code :

SCI-647/087

Image not found or type unknown

Description :

Marked (Tarred) Pots (Product Code: SCI-647/087) is a graduated borosilicate glass pot used to hold, weigh and measure small quantities of solids and liquids in school and college chemistry laboratories. With a 100 ml capacity, clear walls and a corrugated cap, it suits students whoweigh samples by difference and want to see the contents at a glance. This borosilicateglassware is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEMmanufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Capacity	100 ml
Material	Borosilicate glass
Markings	Graduated
Colour	Clear
Closure	Corrugated cap
Resistance	Heat resistant and chemical resistant
Product code	SCI-647/087
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Marked Tarred Pot Used For?

In a practical class the 100 ml pot is first placed empty on a balance and that reading is noted as the tare. A sample is then added, and its mass is found by subtracting the tare from the new reading. The graduations give a quick visual check of volume when a liquid is poured in, though a pipette or measuring cylinder should be used whenever an exact volume matters.

Because the glass is chemical resistant, the pot can hold common laboratory solutions and dry reagents between the preparation and use stages of a lesson, with the corrugated cap keeping dust out. As part of a school chemistry lab glassware set it sits naturally beside beakers and flasks. Heat resistance allows warm liquids, but remove the cap before warming and avoid sudden temperature changes.

What to Specify When Ordering

- Capacity: this listing is the 100 ml pot; larger marked pots are listed separately (see Related Laboratory Equipment).
- Quantity: the number of pots needed per bench or student group.
- Closures: whether you also want extra corrugated caps for repeat use — ask us.
- Companion items: a balance and spatulas, if you are equipping a weighing station from scratch.
