Product Name :

Marked (tarred) Pots 1000 ml

Product Code :

SCI-638/090

Image not found or type unknown

Description :

Marked (tarred) Pots 1000 ml (Product Code: SCI-638/090) is a litre-size transparentborosilicate glass tare vessel used to make up and hold bulk quantities of solutions in school,college and institutional laboratories. It closes with a sanded cap and is chosen when a full day ofpracticals draws on one shared stock. This borosilicate glassware is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory inAmbala, India.

Specifications

Parameter	Detail
Capacity	1000 ml
Material	Borosilicate glass
Colour	Transparent
Design	Tare vessel with sanded cap
Resistance	Chemical resistant, heat resistant
Product code	SCI-638/090
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the 1000 ml Tarred Pot Used For?

Laboratories use this pot for litre-scale batches: a technician tares the empty vessel, weighs in the solute and makes the solution up before the first class, so every group draws from the same stock. It also works as a clean reservoir for distilled or rinse water on a busy bench. Because the listing for this size does not mention graduations, measure volumes with a measuring cylinder or volumetric flask.

Borosilicate glass resists heat and most routine chemicals, which is why it is preferred for chemistry lab glassware that is washed and reused for years. Keep the sanded cap and the rim clean and dry, because grit on a ground surface can make a cap stick. Lift the full vessel by its body, never by the cap.

What to Specify When Ordering

- Capacity: 1000 ml under code SCI-638/090; smaller marked pots are separate listings.
- Graduations: if you need volume marks at this size, say so in your enquiry so we can confirm what applies.
- Quantity: the number of litre-size stock vessels each lab needs.

OEM Manufacturer

Jain Scientific Equipments Private Limited operates under the ScienceLab name and is the OEM (original equipment manufacturer) of the Marked (tarred) Pots 1000 ml. The vessel is made at the comp der, and s ps or ma
