Description :

Symbols of Chemical Elements (Product Code: SCI-907/110) is a laminated wall chart used to help students learn the one- and two-letter symbols that stand for the chemical elements, in secondary-school and college chemistry classrooms. At 70 cm x 100 cm it gives beginners a constant reference while they memorise symbols and start writing formulas. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Topic	Symbols of the chemical elements
Format	Wall-mounted chart
Size	70 cm x 100 cm
Finish	Laminated
Setting	Classrooms and laboratories
Product code	SCI-907/110
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Element Symbols Chart Used For?

Chemical symbols are the alphabet of chemistry. Each element has a one- or two-letter code in which the first letter is always a capital and the second always lower case, so Co (cobalt) and CO (carbon monoxide) mean quite different things. Many symbols follow the English name, such as H for hydrogen or O for oxygen, while others come from Latin — Na from natrium for sodium, K from kalium for potassium, Fe from ferrum for iron and Pb from plumbum for lead.

Teachers use a symbols chart for quick-fire quizzes, for spelling out symbols in the first lessons on atoms, and as a reference when students begin writing formulas and equations. Hang it close to the periodic table so learners can move from a symbol to its place in the table. It is a practical addition to any chemistry lab equipment list for schools in India.

OEM Manufacturer

Jain Scientific Equipments Private Limited trades as ScienceLab and manufactures the Symbols of Chemical Elements chart as its OEM, at the company's licensed factory at Saha, Ambala, Haryana. For institutional and tender buyers who need vendor registration details, the company's GSTIN is 06AAECJ8618A1ZT and its LEI is 3358004HRD1JIVXKYX49. Orders go factory-direct to schools, colleges, dealers and importers, and repeat copies are requested from the maker itself — just ask us. See the ScienceLab company profile.
