Description :

Geometrical Instruments Set (Product Code: SLE/MAT/09) is a set of 5 lightweight plastic geometry instruments used by teachers to draw and demonstrate constructions on whiteboards and chalkboards in school maths classrooms. The instruments are made from polystyrene plastic with handles for ease of use, the compass accommodates both marker and chalk, and everything is kept in a reusable storage box. The set is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Contents	Set of 5 instruments
Material	Polystyrene plastic; durable and lightweight
Designed for	Whiteboards and chalkboards
Handles	Fitted for ease of use
Compass	Accommodates marker and chalk
Storage	Reusable storage box
Product code	SLE/MAT/09
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Board Geometry Instruments Set Used For?

Constructions such as bisecting a line or an angle, drawing circles and arcs, or building a triangle from given sides are hard to follow in a textbook diagram. Drawing them step by step at board scale lets the whole class see how each arc and line is placed, then repeat the construction in their notebooks with their own geometry sets.

The handles let the teacher hold an instrument steady against the board with one hand while drawing with the other. Fit a marker in the compass for a whiteboard or chalk for a chalkboard, wipe the instruments clean after marker use, and return all five to the storage box so none go missing. For a classroom or maths lab, it is a practical board kit for everyday geometry teaching.

OEM Manufacturer

Jain Scientific Equipments Private Limited, the company that trades as ScienceLab, makes the Geometrical Instruments Set as the original equipment manufacturer at its own licensed factory in Saha, Ambala, Haryana, India. Schools equipping several classrooms, as well as dealers and importers, buy the set directly from the manufacturer, and repeat orders or replacement instruments are arranged with the same team — ask us what you need.
