Description :

Pipettes 25ml graduated (Product Code: SCI-201/70) is a clear glass measuring pipette with a 25 ml graduated scale, used to measure and dispense larger, adjustable volumes of liquid in chemistry, biology and environmental testing labs. Where a single-mark pipette gives only its full volume, the graduations on this pipette let a technician run off intermediate amounts when mixing reagents or preparing dilutions. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and laboratory equipment supplier in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Capacity	25 ml
Scale	Graduated
Material	Glass
Colour	Clear
Chemical resistance	Chemical resistant
Heat resistance	Heat resistant
Product code	SCI-201/70
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is a 25 ml Graduated Pipette Used For?

A 25 ml graduated pipette is useful whenever a procedure calls for mixing liquids in set proportions, such as making up buffer or reagent mixtures, or dispensing equal portions of a solution into several flasks. Soil and water analysis practicals use it to measure extracting solutions and samples, and biology classes use it to prepare larger volumes of diluted stock for group experiments.

To dispense part of the volume, fill to a convenient starting line, note the reading, and let liquid out until the level reaches the second reading. Keep the pipette vertical throughout, and rinse it with distilled water promptly after use so solutions do not dry on the graduations.

What to Specify When Ordering

- Product code SCI-201/70, since a separate 25 ml pipette entry also exists in this catalogue
- Number of pipettes per bench or student group
- A filler able to handle 25 ml, if you do not already have one
- Stands or racks for storing the pipettes between classes
