Description :

Test Tube with Rim (Product Code: SCI-243/90) is a transparent glass tube used to hold, mix and gently heat small quantities of liquids and solids in school and college science practicals. Its 25 x 200 mm size and rimmed mouth make it a roomy, easy-to-handle tube, and the glass islisted as both heat resistant and chemical resistant. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of chemistry lab glassware, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Material	Glass
Size	25 x 200 mm
Mouth	With rim
Colour	Transparent
Properties	Heat resistant; chemical resistant
Product code	SCI-243/90
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Test Tube with Rim Used For?

Students reach for the Test Tube with Rim when they carry out qualitative tests: adding a reagent drop by drop, watching for a colour change, a precipitate or gas bubbles, and warming the mixture over a burner. The generous size leaves room for a glass rod, a thermometer or a small piece of solid, and the transparent wall lets the whole group see what happens.

For safe heating, grip the tube with a holder near the rim, tilt it, point the mouth away from everyone and keep it moving through the flame. Let the glass cool in a rack before washing, and clean it with a tube brush so that no residue is carried into the next test.

What to Specify When Ordering

- The tube size: this listing is the 25 x 200 mm tube with rim; other test tube sizes are separate catalogue items.
- The number of tubes needed per student group or per laboratory.
- Any holders, stands or brushes you want quoted together with the tubes.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the OEM (original equipment manufacturer) of the Test Tube with Rim. The tubes are made at the company's own licensed factory at Saha, Ambala, Haryana, India, so schools, colleges, dealers and importers buy s
