Product Name :

Containers for Draining Dishes

Product Code :

SCI-369/151

Image not found or type unknown

Description :

Containers for Draining Dishes (Product Code: SCI-369/151) is a plastic draining and drying rack used to hold washed glassware upside down while it drains and dries in laboratories. It has 28 seats, so a full wash-up of flasks, beakers, cylinders and tubes can dry in one place, and it suits laboratory, medical, chemical, quality testing, school and research institute settings. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and laboratory equipment supplier in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Type	Draining / drying rack for laboratory dishes and glassware
Material	Plastic
Seats	28
Applications	Laboratory, medical, chemical, quality testing, school and research institute use
Product code	SCI-369/151
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is a Lab Draining Rack Used For?

After glassware has been scrubbed and given its final rinse with distilled water, it needs to drain mouth-down so no water pools inside and dust cannot settle in it. A draining rack keeps each item separate on its own seat, which prevents vessels knocking together and chipping, and frees up bench space around the sink.

Place each vessel mouth-down on its own seat and leave everything until completely dry before returning it to cupboards. As the rack is plastic, let oven-dried or flame-heated glassware cool before it goes on, and wipe the rack down regularly so it stays clean. It is a practical piece of chemistry lab equipment for any school wash-up area.

What to Specify When Ordering

- Number of racks — one 28-seat rack per sink, or more for busy prep rooms.
- The types of glassware you mainly dry, so we can confirm the rack suits them.
- Any brushes or cleaning items to be added to the same quotation.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the original equipment manufacturer of this draining rack, which it produces at its own licensed factory in Saha, Ambala, Haryana. Laboratories, schools, research institutes, dealers and importers receive it fact ask us.
