Description :

Litmus Paper (Type Blue) (Product Code: SCI-615/268) is a dye-impregnated test paper used to identify acidic solutions during acid–base lessons, salt analysis and quick bench checks in school and college laboratories. Touch it with an acid and the blue turns red; a base or a neutral liquid produces no change, which is why teachers pair it with red litmus. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a chemistry consumables supplier in India.

Key Details

Parameter	Detail
Indicator type	Blue litmus paper
Response to acids	Turns red
Response to bases	Stays blue (no change)
Response to neutral substances	Stays blue (no change)
Shelf life	Shelf life depends on the chemical, its grade and storage conditions; ask us for the expiry date of the batch you are quoted.
Product code	SCI-615/268
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is Blue Litmus Paper Used For?

Blue litmus is the quick first check in acid–base topics: students dip a strip, or touch it with a drop carried on a glass rod, into vinegar, lemon juice, dilute hydrochloric acid or soap solution and record which samples turn it red. In salt analysis, a strip moistened with distilled water and held at the mouth of a test tube helps confirm acidic gases such as hydrogen chloride or sulfur dioxide.

Because the paper only reports “acid or not”, pair it with red litmus to separate bases from neutral substances, and move to universal indicator when an approximate pH value is needed. Handle strips with clean, dry fingers or forceps, avoid touching the test area, and keep the container closed so that laboratory fumes do not change the colour before use.

Supplier

Jain Scientific Equipments Private Limited trades as ScienceLab and supplies Litmus Paper (Type Blue) as a sourced consumable, often packed with chemicals and glassware in orders for schools, colleges and distributors. Institutional buyers completing vendor registration can record the supplying company's GSTIN 06AAECJ8618A1ZT and LEI 3358004HRD1JIVXKYX49. Company background is available on the ScienceLab profile.
