Description :

Factor Board (Product Code: SLE/MAT/25) is a maths board supplied with foam square tiles, used to explore factors and multiples in primary and middle school classes. Arranging the tilesinto rectangular arrays shows every factor pair of a number, and the board allows innumerable combinations. The board is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Key Details

Parameter	Detail
Supplied with	Foam square tiles
Topic	Factors and multiples — understanding their definitions
Combinations	Innumerable
Product code	SLE/MAT/25
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Factor Board Used For?

On the Factor Board, students take a number of foam tiles and try to arrange all of them into rectangles. Each rectangle that works gives a factor pair, and a number that forms only a single row turns out to be prime. Seeing twelve tiles make several different rectangles explains the word “factor” better than a definition alone.

The same arrays read the other way show multiples, and comparing two numbers’ rectangles leads towards common factors. Because the combinations are innumerable, the board supports practice at several levels. It is a practical piece of school lab equipment for primary and middle classes.

OEM Manufacturer

The Factor Board is manufactured by ScienceLab, the brand of Jain Scientific Equipments Private Limited, acting as the OEM rather than a reseller. Boards and tiles go factory-direct to schools, dealers and importers.

Jain Scientific Equipments Private Limited (CIN U29309HR2020PTC087597) makes the board at its licensed factory at 449, HSIIDC Industrial Area, Saha, Ambala, which holds Factory Licence AMB-ONLINE-CHD-J-414. See our company profile for more.
