

Product Name :

Capacitor (Charging and Discharging)

Product Code :

SCL-231/036

Description :

DESCRIPTION :-

- Consists of a power supply device (0-20 V DC, 1A) a multimeter, an electrical resistor (10K, 100K), an electronic capacitor (1000 μ F), an outlet board, 6 pairs of red conducting wires and black.
- Capacitor demonstration table during charging and discharging
