Description :

Microphone (Product Code: SCI-1421/09) is a wired microphone with an XLR connector used to pick up voices and instruments for a sound system, recording set-up or classroom demonstration. Its unidirectional, cardioid pickup captures a source such as a vocalist or guitar amplifier while shunning off-axis sound, which keeps background noise and feedback down. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a lab instruments supplier serving schools and institutions.

Key Details

Parameter	Detail
Connections	Wired
Connector type	XLR connector
Polar pattern	Unidirectional (cardioid pickup)
Pickup behaviour	Captures the source in front, such as a guitar amplifier or vocalist, while shunning off-axis sound to minimise background noise and feedback
Colour	Black
Product code	SCI-1421/09
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Wired XLR Microphone Used For?

A wired cardioid microphone suits fixed positions: a lectern in an auditorium, a music room where a vocalist or guitar amplifier is miked, or a small recording corner for podcasts and language practice. The XLR connection is the standard input on mixers, PA amplifiers and audio interfaces, and a wired link needs no batteries or radio channel, so it is simple to leave set up for daily use.

In the physics lab, the microphone can pick up the note from a tuning fork or loudspeaker so that, through a suitable amplifier or interface, the waveform can be shown on an oscilloscope during sound wave experiments. Aim the front of the microphone at the source, keep loudspeakers behind or to the side of it, and coil the cable loosely when packing it away.

What to Specify When Ordering

- The number of microphones and where each will be used.
- Whether you also need an XLR cable or a microphone stand quoted, as these are not listed with the item.
- The mixer, amplifier or interface it will plug into, so the XLR input can be checked.

Supplier

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, which supplies this wired Microphone to schools, colleges, training centres and businesses. Ordering it with your labor
