Product Name :

Tripod Stand 50 mm

Product Code :

SCI-1351/019

Image not found or type unknown

Description :

Tripod Stand 50 mm (Product Code: SCI-1351/019) is a compact three-legged support used to hold crucibles, evaporating dishes and small beakers above a small flame in school and college laboratories. It has a triangular top of 50 mm per side, legs bent outwards for stability and plastic caps on the leg ends to protect the work surface, a handy tripod stand for small-scale lab work. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and laboratory equipment supplier in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Top	Triangular
Side length of top	50 mm
Top material (as listed)	Mild steel wire; the listing also mentions a cast iron top — please confirm on quotation
Legs	Mild steel, painted; zinc-coated legs bent outwards for stability
Leg ends	Covered with plastic caps to avoid scratching the work surface
Use	Platform to hold and support glassware during experiments
Product code	SCI-1351/019
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the 50 mm Tripod Stand Used For?

A small tripod is used for small-scale heating, where a full-size stand would be too wide for the vessel. Typical uses include warming a little solution in a small beaker on a piece of wire gauze over a spirit lamp, heating a crucible on a suitably sized pipe-clay triangle, or evaporating a few drops of a solution in a small dish to recover crystals. The three-legged frame keeps the vessel level and resists being knocked sideways.

The plastic caps on the legs protect polished or laminated bench tops, but they should be kept clear of the flame, so place the heat source centrally under the top. Let the stand cool before moving it, and handle hot crucibles or dishes with tongs. Because the height is not stated in the listing, check that your spirit lamp or burner fits underneath before ordering.

What to Specify When Ordering

- The height you need, since the listing does not state it — ask us to confirm.
- Your preferred top material, as the listing mentions both mild steel wire and cast iron.
- Quantity, plus any gauze, spirit lamps or tongs to quote with the stands.
