Description :

Drilling Machine (Product Code: SCI-1496/029) is a 690–710 W, two-speed electric impact drill used to bore holes and drive screws in plastic, wood, metal and masonry in school workshops, technical institutes and laboratory maintenance work. Its variable-speed, reversible (var/rev) action lets one tool handle both drilling and fastening jobs. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, for institutions that want a power drill on the same order as their lab equipment.

Specifications

Parameter	Detail
Type	Impact drill
Power	690–710 W
Speeds	2-speed, var/rev (variable speed with reverse)
Materials	Plastic, wood, metal and masonry
Typical tasks	Making holes of different sizes in solids such as wood, steel and concrete; screwing and fastening
Product code	SCI-1496/029
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a Drilling Machine Used For?

In an educational setting this drill does double duty. Workshop and vocational students use it to learn safe hole-making in timber, sheet metal and plastics, while lab technicians rely on it for installation and lab equipment maintenance jobs such as fixing shelves, mounting stands or running cable through walls. The impact action helps when drilling into brick or concrete, and the reverse setting backs screws out as easily as it drives them in.

Choose a bit made for the material, clamp small workpieces rather than holding them by hand, and start at low speed before increasing. Switch impact mode off for wood, metal and plastic, and always wear safety goggles because chips and dust fly from the cutting edge.

What to Specify When Ordering

- The number of drills required for your workshop or maintenance team.
- Drill bits and screwdriver bits needed, since these are not listed with the machine.
- Your mains supply and plug requirements, so we can confirm a suitable model.
- Protective items such as safety goggles for users.

Supplier

Jain Scientific Equipments Private Limited, which trades as ScienceLab, supplies this impact drill as part of its equipment range for schools, colleges and technical institutes. It is sourced for institu
