Product Name :

Visualizer Presenter (Deluxe)

Product Code :

SCI-280/045

Image not found or type unknown

Description :

Visualizer Presenter (Deluxe) (Product Code: SCI-280/045) is a document camera used toshow textbooks, journals, models, 3D objects and microscope views live on a projector, touchscreen or interactive whiteboard in classrooms and laboratories. Teachers use its 8M pixelcamera to capture areas up to A3, with 1080p HDMI output at 30fps, auto focus and 100x digitalzoom, making it practical smart lab equipment for schools. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a laboratory equipment supplier in India.

Specifications

Parameter	Detail
Camera	8M pixel
Sensor	1/4-inch CMOS, Full HD
Maximum output resolution	1080p via HDMI output
Frame rate	30fps
Zoom	100x digital
Focus	Auto focus
Capture area	Large image capture, maximum A3
Lighting	Built-in LED lights for low-light conditions
Camera head	Rotating
Recording	Records presentations and saves them via SD card
Microscope use	Compatible with 20–34 mm microscope eyepieces
Connects to	Projectors, touch screens, interactive whiteboards, wireless tablets and wireless mouse
Product code	SCI-280/045
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Visualizer Presenter Used For?

Anything a teacher would otherwise hold up in front of the class — a textbook diagram, a worked answer, a pressed leaf, a circuit board or a model — appears enlarged on the room display, so every student sees the same detail at once. The rotating head can point down at the desk or across to a demonstration, and because the visualizer fits microscope eyepieces from 20 to 34 mm, a teacher can share a live slide view before students go to their own microscopes.

Record demonstrations to an SD card for revision or for students who missed the class. The built-in LED lights keep pages readable when room lights are dimmed for the projector, and auto focus copes with switching between flat pages and solid objects. Digital zoom is best for reading small print
